MADE FOR INDIA

Blackcat has the most modern multiple manufacturing base in India with a strong in-house R&D centre. That is how each product is thoroughly customised for Indian conditions for optimum performance.

OEMS TRUST BLACKCAT

Each Blackcat product goes through stringent quality parameters under the sharp eyes of its qualified technicians. No wonder Blackcat products carry trust of more than 15 international OEMs.

PD-QC Turbocharge Pro

OVERHEAT
PROTECTION

80% IN
15 MINUTES*

USB-C & USB-A

QC & PD
TECHNOLOGY

Why select PD-QC Turbocharge Pro?

- Sleek, elegant design with premium looking backlit LED illumination
- USB port, C-type port
- Cutting edge tech with USB-C Power Delivery and Qualcomm
- Operating voltage: 12V, 24V
- *Under test conditions

Jiffy 4.8A

Fast charging

5,000 cycles
tested

8 protections

Why select Jiffy 4.8A charger?

- Sleek, elegant design with premium looking backlit LED illumination
- Market leading product
- USB port, C-type port
- Operating current: up to 4.8A
- Operating voltage: 12V, 24V

CV PD-QC Charger

OVERHEAT
PROTECTION

SUITABLE FOR BUSES,
TEMPO TRAVELLERS,
SEDAN/ SUV REAR SEAT

USB-C & USB-A

QC & PD
TECHNOLOGY

Why select CV PD-QC fast charger?

- Flat design enables easy installation where hole/ availability is an issue
- Sleek, elegant design with premium looking blue LED illumination
- Market leading product for commercial vehicles
- USB-A and USB-C ports
- Cutting edge tech with USB-C Power Delivery and Qualcomm
- Operating voltage: 12V, 24V
- Customised wiring harness available (if needed)

CV Charger Flat

Why select Blackcat CV Charger Flat?

- Flat design enables easy installation in tight slot as well
- Sleek, elegant design with premium looking backlit blue LED
- Market leading product for commercial vehicles
- Dual USB port
- Operating current: up to 3.1A
- Operating voltage: 12V, 24V
- Customised wiring harness available (if needed)

CV Charger

Suitable for
commercial vehicles

Fast charging

5,000 cycles
tested

8 protections

Why select Blackcat CV Charger?

- Concealed design, replaces standard cigarette lighter socket in vehicle
- Market leading product for commercial vehicles
- Dual USB port
- Operating current: up to 3.1A
- Operating voltage: 12V, 24V
- Customised wiring harness available (if needed)

ResQ Safety Charger

Suitable
for Cars

Fast charging

5,000 cycles
tested

8 protections

Why select Blackcat ResQ?

- Patented product
- Safety charger - seatbelt cutter, Tungsten Carbide tip concealed hammer
- Dual USB port
- Operating current: up to 3.1A
- Operating voltage: 12V, 24V

4-IN-1 PD Cable

Why select Blackcat 4-in-1 Braided Cable?

- This Universal cable can simultaneously charge android, iOS and Type C devices.
- This Universal cable is made of High-quality Nylon material and makes it resistant to fraying and wear-related damage, more flexible and durable
- Cable is Tangle Free, Rugged, Quick charging, universally compatible, Flexible and of High Quality

3-IN-1 Braided Cable

Genuine accessory approved

HERCULES²

2X Cylinder
Power

Premium Copper
winding motor for
long life

No-jack
required to
inflate

Sturdy
Metal Body

Thick, braided,
Hose

Why select Hercules²?

- Powerful 150W twin-cylinder inflator: fills up SUV/Sedan R15 tyre in under 2 minutes
- Twin cylinder design fills air in half the time
- Rubber pads for low noise operation
- Threaded Spring Valve for faster & leak-proof inflation
- Superior build quality that inflates 4 tyres without over-heating
- Sturdy metal body
- 1 Year Warranty with Lifelong customer support.

HERCULES-X

Premium Copper winding motor for long life

No-jack required to inflate

Quick Heat Dissipation

Sleek, Lightweight & Easy to store

Thick, braided, Heat Proof

Why select Hercules-X?

- 150W powerful inflator
- Threaded Spring Valve for faster & leak-proof inflation
- 10ft (3.3m) long wire
- Bright LED torch-light
- Superior build quality ensures continuous inflation of all 4 tyres, without risk of overheating/ motor failure
- 1 Year Warranty with Lifelong customer support.

HERCULES Smart

Premium Copper winding motor for long life

No-jack required to inflate

Quick Heat Dissipation

Sleek, Lightweight & Easy to store

Thick, braided, Heat Proof

Why select Hercules Smart?

- Compact and lightweight
- Threaded Spring Valve for faster & leak-proof inflation
- 10ft (3.3m) long wire
- Bright LED torch-light
- Superior build quality ensures continuous inflation of all 4 tyres, without risk of overheating/ motor failure
- 1 Year Warranty with Lifelong customer support.

HERCULES

Premium Copper winding motor for long life

No-jack required to inflate

Sturdy Metal Body

Thick, braided, Hose

Why select Hercules?

- Rubber pads for low noise operation
- Threaded Spring Valve for faster & leak-proof inflation
- Superior build quality that inflates 4 tyres without over-heating
- Sturdy Metal Body
- 1 Year Warranty with Lifelong customer support.
- Analogue Gauge

Vacuum Cleaner HD

Korean SUV OEM
approved

Premium Copper
winding motor for
long life

Powerful Suction

Lightweight

Why select Blackcat Vacuum Cleaner?

- Wet & Dry powerful vacuum cleaner for Cars & SUVs. Cyclonic action keeps the filter clean and suction power constant.
- Designed for India: Ideal for dust, cigarette ash, spilled food & drink
- 5 attachments give you the flexibility to clean all corners and all types of spillage
- Powerful motor with Copper winding ensures high suction power with the promise of long life
- 1-year warranty against manufacturing defects.

Central Locking System NSA

Why select Blackcat Central Locking Systems?

- India's 1st remote locking car security system company
- Over 4 lakh cars secured - since 1993
- High decibel alarm 110dB
- NSA 4D: suitable for all cars
- NSA 1D: suitable for cars where driver door lock controls locking/ unlocking of other door locks
- OEM-style remote designs
- 3 years warranty

Professional cooling product, designed for the Indian conditions.

Fridge-cum-warmer

Low Power consumption

Operates from a car cigarette lighter socket

AT-18

Why select AT-18

- Smart engineering and efficient manufacturing ensures affordable pricing.
- Serves dual purpose of cooling as well as heating food and beverages
- Can cool up to 30°C below car's cabin temperature (up to 0°C) and heats up to +65°C.
- Can fit 4 bottles of 750ml or 6 cans of 500ml.
- Connect the fridge to vehicle's cigarette lighter socket (12V or 24V DC) or your domestic plug point (230V AC), set the mode to Cooling or Heating. No installation needed.
- The fridge consumes even lesser power than headlight lamps. Additionally, it comes with an intelligent battery protection mechanism which ensures safety from over-draining your vehicle battery.
- Ideal for Cars/SUVs

CB-18

Professional cooling product, designed for the Indian conditions.

Fridge-freezer

Low Power consumption

Operates from a car cigarette lighter socket

Genuine accessory approved by Indian and International SUV OEMs

Why select CB-18?

- Smart engineering and efficient manufacturing ensures affordable pricing
- Can deep freeze up to -18°C regardless of the outside temperature
- Connect the fridge to vehicle's cigarette lighter socket (12V or 24V DC) or your domestic plug point (230V AC)
- Consumes power lesser than a headlight lamp
- Genuine accessory approved by European OEM car manufacturer

Suitable for cars, camping, cold chain delivery of meat, ice cream, dairy products, storing and transporting medical kits, bio samples, blood bags, plasma samples, vaccines etc.

AHD Strawhat Camera
